CAPRO
DRIVEN BY GOATS

All necessities for a successful farm management.
Fully adaptable to your own needs.

Capro**Skills**
The central point of this module is development and transfer of knowledge. Inspiring trainings and tailor-made consultancy for dairy goat farmers and their employees, as well as for feed mills, vets and other consultants.

Capro**Manager**
An animal management system with a modern, real-time dashboard. All aspects of the herd and individual goat can be recorded easily with an app on your phone, with use of a reader or PC.
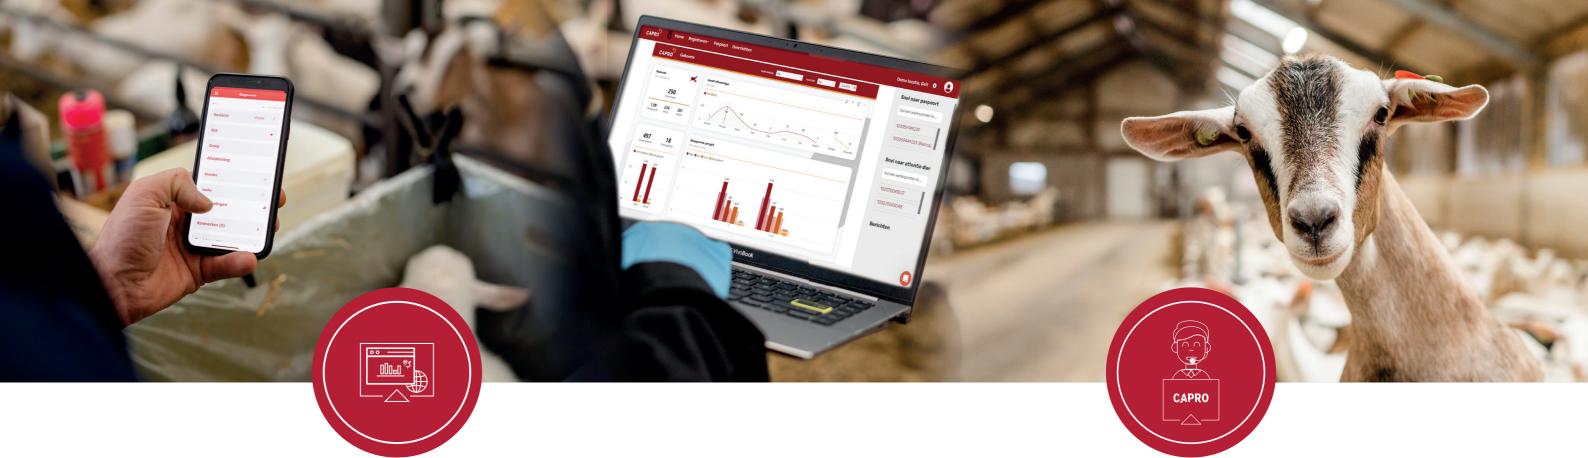

Capro**Insight**
A practical goat knowledge database, with topics like animal health, nutrition, transition period and kidding, fertility, long lactation milking and kid rearing.

Capro**Nutrition**
For specific knowhow and advice in goat nutrition. Complemented by essential nutritional products, like premixes, specifically for goats. Adapted to the circumstances and possibilities of your country and farm or feed mill.

Capro**Store**
Webshop for products with proven results, essential for success and practical use in the barn.

Capro**Manager**

Discover our unique animal management system. It includes a dashboard where you can get a glance of the key figures of your farm. In the Netherlands, it is linked to RVO. The system is suitable for farms of all sizes. Available for multiple users and in multiple languages, also usable offline on your mobile phone and accessible worldwide.

CaproManager can register:

- ✔ Location
- ✔ Birth

- ✔ **Feed** (connection with individual feeding systems)

Try it the first month for free! Contact info@caprogoat.com
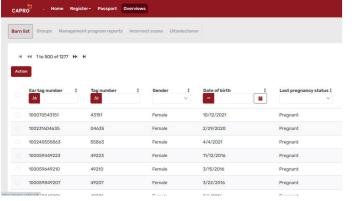

Capro**Skills**

Would you like to learn how to ultrasound for pregnancy? Or would you like to be able to perform artificial inseminations yourself? We offer training sessions, in small groups, throughout the year. At CaproSkills, we believe in a personalized approach, ensuring that each participant receives all the knowledge and attention they need. Trainings can also be provided outside of the Netherlands.
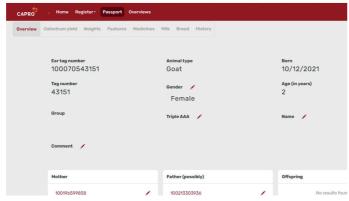

Discover the world of practical experience with Capro.

Do you have your phone with you? Start using CaproManager!

Teamwork creates the best results

Anne-Riet Boerenkamp

"Anne-Riet likes to be an all-round sparring partner for goat farmers and related companies. Her years of practical experience on a large-scaled dairy goat farm and passion for goats are very useful in this regard. You can contact her for tailor-made advice, conducting research and providing training sessions and courses."

Erik Reefhuis

"Erik is exclusively active for Capro in international matters. Goat nutrition and entrepreneurship are Erik's specializations. His extended experience in the compound feed industry is of added value. You can contact him for all international aspects, economical optimalization of the farm, ration calculations and all other nutritional issues."

Rianne Planjé

Rianne is the driving force behind the scenes. She plays a crucial role in supporting our team and customers. If you have a question, Rianne will probably pick up our Helpdesk phone and help you further.

Jessica Zuurmond

"Jessica is the software specialist of CaproManager. She has worked in the dairy goat sector herself and therefore understands the practical aspects. Her developed expertise in ICT, combined with her practical experience, forms a unique combination."

Juliet Verink

"Juliet is our new practical specialist. She will be working along on goat farms to enhance operational efficiency and provide practical knowledge to the farmer and employees. She is available worldwide."

Elly Docters van Leeuwen

"Elly provides international support for CaproNutrition. Additionally, she provides assistance to farmers in the implementation of CaproManager and is actively involved in the CaproSkills module."
